

## 1111 Department of Consumer Affairs Bureaus, Programs, Divisions

The Department of Consumer Affairs (Department) is responsible for promoting and protecting the interests of millions of California consumers by serving as a guardian and advocate for their health, safety, and economic well-being and by promoting legal and ethical standards of professional conduct. The Department helps to promote good business practices and to ensure that California's consumers receive quality services by establishing minimal competency standards for approximately 250 classifications involving approximately three million professionals. The Department is also an important advocate on consumer and business issues. In general, the Department's Boards and Bureaus provide exams and licensing, enforcement, complaint resolution, and education for consumers.

In addition, centralized services are provided by the Department for efficiency. Specifically, Department staff investigate complaints against licensees; develop valid examinations for applicants for licensure; monitor and advocate for legislation; provide consumer education and outreach; provide legal and audit services; and provide general administrative support involving personnel, budgeting, accounting, purchasing, and space management.

Effective Fiscal Year 2016-17, the Department will no longer be separated into two business units, and will instead be displayed under one business unit, 1111.

There are currently 26 Boards, two committees, and one commission under the broad authority of the Department, and 10 Bureaus and one certification program under the direct oversight of the Department.

Additional information on the Department, and the various boards and bureaus, is available at [www.dca.ca.gov](http://www.dca.ca.gov).

## 1111 Department of Consumer Affairs Bureaus, Programs, Divisions - Continued

### Department of Consumer Affairs Performance Based Budgeting

The Department of Consumer Affairs (DCA) oversees a wide variety of autonomous Boards and Bureaus that certify, register, and license individuals and entities that provide goods and/or services in the state. The overall purpose of the DCA is to promote a fair and competitive marketplace in which consumers are protected. The DCA provides consumers and licensees with valuable information and training, and processes and mediates complaints. When appropriate, cases are referred to the Attorney General's office or law enforcement authorities for administrative action, civil and/or criminal prosecution.

#### Background

Executive Order B-13-11 requires the Department of Finance (DOF) to work in conjunction with various departments to utilize performance-based budgeting to increase efficiency and focus on accomplishing program goals. As a result, the DCA has identified a variety of ways to measure enforcement and licensing efforts for all Boards and Bureaus. Performance-based budgeting provides the DCA the flexibility to manage its resources based on fluctuating program demand. The performance measures displayed below encompass two core program components of Board and Bureau workload: Enforcement and Licensing.

#### Enforcement Performance Measures

To ensure stakeholders can review the progress of DCA's Boards and Bureaus in meeting their enforcement goals and targets, DCA has developed a transparent system of performance measurements. These measures are critical, particularly during the current climate of budget constraints, for demonstrating that DCA is making and will continue to make the most efficient and effective use of its resources. These measures are posted publicly to the Department website on a quarterly basis.

The DCA will assess its enforcement programs based on the following criteria:

- Intake Cycle Time - *Average number of days from receipt of the complaint to the date the complaint was closed or assigned for investigation;*
- Investigation Cases - *Average number of days to complete the entire enforcement process for cases not transmitted to the AG. Includes intake and investigation.*
- Formal Discipline Cases - *Average cycle time to complete the entire enforcement process for cases transmitted to the Attorney General's office for formal discipline. Includes intake, investigation, and transmittal outcome.*

Information for this special display was compiled using a variety of sources. The Consumer Affairs System (CAS) and the BreZE system were the primary sources for collecting program data, however some Boards and Bureaus do not utilize CAS or BreZE due to their size or reporting requirements, so data for these programs was obtained through non-standardized reporting systems. Further, target numbers shown in this display are based on the Quarterly Performance Measures Report and it should be noted that each Board and Bureau has mandates and functions which can be significantly different. Using this data to compare the cycle time of Boards and Bureaus may not accurately capture unique aspects of individual programs. Additionally, the data identified in this display may not correspond with performance data in the

**1111 Department of Consumer Affairs Bureaus, Programs, Divisions - Continued****Department of Consumer Affairs Performance Based Budgeting**

DCA Annual Report or the Quarterly Performance Measures Report based on the method in which the data was collected.

The following budget display represents a snapshot of existing enforcement efforts of the Boards and Bureaus within the DCA.

**1. Intake Cycle Time**

The following represents the total number of cases assigned for investigation and the average number of days (cycle time) from receipt of a complaint to the date the complaint was assigned for investigation or closed without being referred for investigation. A complaint may not be referred for investigation for a variety of reasons, such as lack of jurisdiction. This data assists DCA and the program in measuring the efficiency of the program's internal complaint intake process.

**Licensing Performance Measures**

The DCA tracks and evaluates licensing program performance by measuring the average application processing time of initial exam and license applications. The DCA implemented this performance tracking at the start of the 2015-16 fiscal year, which will be the first year of actual data reported in

### Department of Consumer Affairs Performance Based Budgeting

the 2017-18 Governor's Budget. To evaluate cycle times for licensure, the measure will be divided into two categories: 1) Incomplete Applications and 2) Complete Applications.

- Average Days to Application Approval (**incomplete application**): This is the timeframe from when the Board/Bureau received the application for exam and/or licensure to the time the application was approved for exam eligibility or license issuance. In this instance, all applications were incomplete and/or needed additional information/documentation from the applicant.
- Average Days to Application Approval (**complete application**): This is the timeframe from when the Board/Bureau received the application for exam and/or licensure to the time the application was approved for exam eligibility or license issuance. In this instance, all applications were complete and did not need additional information/documentation from the applicant.

An initial exam application is the first application submitted by an applicant to sit for an examination that is required for licensure. This does not include re-examination applications. Initial license applications are applications that result in the issuance of a license once approved by the Board or Bureau. Applicants must meet all requirements for licensure established in law before the license is issued. Some applicants may need to submit documentation at various stages of the application process. The applications included in the licensing performance measures represent standardized processes that require Board or Bureau staff to review submitted material before approving an applicant for an exam or license. Depending on the application and licensure requirements, processes may vary across license type. The targets are categorized by license type and application type in order to account for these potential differences in processing times.

The DCA did not establish processing time targets for incomplete applications because the amount of time an application is incomplete is outside of the Board's or Bureau's control. An application is considered incomplete when an application requirement has not been met or required documentation has not been received. When a Board or Bureau receives an incomplete application, they cannot continue to process the application until the deficiency has been remediated. Some Boards and Bureaus have statutes or regulations that set a time limit on how long an application may remain incomplete before it is abandoned. Since Boards and Bureaus cannot directly control how long it may take to receive required information from the applicant or another agency, they cannot establish a target timeframe by which they must approve the application.

Complete application processing times may also include the amount of time the Board or Bureau waits to receive required information from an external source. For example, if an applicant is required to be fingerprinted prior to application approval, the Board or Bureau cannot complete the application process until the results of the fingerprints are received from an external source.

All DCA entities have established target processing times for complete applications, with the exception of Boards or Bureaus scheduled for Release Two implementation of the BreZE system. The DCA has elected to exclude these entities from reporting target processing times due to the timing of their conversion to the new system. Release Two implementation is currently scheduled for the middle of the 2015-16 fiscal year, therefore, these entities will not be able to report a full fiscal year of data for 2015-16. In addition, the new system will change existing business processes, which will affect application processing times. In order to establish targets reflective of the new BreZE business processes, the Boards and Bureaus scheduled for Release Two implementation of the

BreZE system will provide licensing performance measure targets for the 2016-17 fiscal year. These targets will be displayed in the 2017-18 Governor’s Budget followed by actual licensing performance data in the 2018-19 Governor’s Budget.

Scientific and professional standards are necessary to assure the public that persons obtain and maintain the skills and knowledge to inspect the structural condition of buildings for pests and wood-destroying organisms, identify pests and organisms, apply chemicals, and recommend and implement other means to control structural pests. The Board's objective is to license those persons that possess the necessary qualifications to professionally perform structural pest control work and to assist consumers in resolving disputes with pest control companies.
